FWPFGM5210 Manage tending operations in a native forest

Release: 1

FWPFGM5210 Manage tending operations in a native forest

Modification History

Release	Comment
1	Replaces equivalent unit FPIFGM5210A Manage tending operations in a native forest, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to prepare and implement a tending operation within a managed native forest. It includes the conduct of consultative processes, analysis of the effectiveness of the operation, and presentation of findings.

The unit applies to those working in a management role in the forest and wood products industry.

Licensing, legislative, regulatory, or certification requirements apply to this unit in some states & territories at the time of publication, and may differ according to jurisdiction

Pre-requisite Unit

Nil

Unit Sector

Forest Growing and Management

Elements and Performance Criteria

<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Plan tending operation	1.1 Review native forest plan and organisational objectives relating to tending operations. 1.2 Identify environmental protection requirements for the native forest. 1.3 Review operational requirements for tending the native forest. 1.4 Consult with stakeholders about tending requirements for the native forest.

	1.5 Document a tending plan and obtain approvals for implementation.
2. Implement tending plan	2.1 Obtain required resources and authorisations to implement the tending plan. 2.2 Implement emergency treatments and hazard notification procedures. 2.3 Organise site schedule with technical operators. 2.4 Implement tending plan with reference to budget, schedule, performance indicators and objectives.
3. Monitor tending operations	3.1 Obtain data about performance at key milestones or established review periods. 3.2 Check that environmental, WHS, organisational and legislative compliance requirements are met and that documentation is accurate and up-to-date. 3.3 Maintain communication with operations supervisor throughout implementation of the plan. 3.4 Amend tending operation plan to ensure that specifications, quality and performance targets are on track.
4. Review tending operation	4.1 Review outcomes against established objectives. 4.2 Determine operational improvements for the future and formulate recommendations. 4.3 Record and report on tending operations to appropriate personnel.

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Writing skills to:	develop and document a plan for tending operations
Planning and organising skills to:	schedule activities to meet established goals and objectives.

Range of Conditions

Not Applicable
