Assessment Requirements for FWPSAW3204 Saw flitches and cants

Release: 2

Assessment Requirements for FWPSAW3204 Saw flitches and cants

Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow organisational policies and procedures relevant to sawing flitches and cants
- saw log sections to produce flitches and cants in line with a work order and within prescribed organisational specifications
- complete these types of basic non-specialist maintenance:
 - cleaning the machine of wood chips and sawdust
 - replacing blunt saw blades
 - inspecting machine parts for wear or damage, including guards
 - greasing and lubricating moving parts
 - checking the operation of emergency stop buttons and lock out systems.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- purpose, features and operation of equipment used to saw flitches and cants:
 - carriages - standard three headed dog carriages and flat top carriages with head rigs
 - saws - circular saws, bench saws and overhead frame saws or band saws
 - mechanical feed
 - conveyor system to transport logs to and from the sawing area
 - maintenance tools and equipment for saws
- typical work flow processes for sawing flitches and cants
- typical flow of log supply in and out of the sawing area

- range of cutting patterns used on logs to achieve maximum output of flitches and cants
- range of feed rates and how they affect production output and finished quality of flitches and cants
- methods for assessing saw blade condition
- characteristics of timber
- storage systems and labelling
- environmental protection practices for forest products factory settings:
 - reducing water and energy use
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing timber
- typical log defects and how they affect ability to produce quality flitches and cants:
 - warp
 - wane
 - curvature
 - cupping
 - shakes
 - insect defects
 - knots
 - resin pockets
- organisational policies and procedures specific to sawing flitches and cants:
 - workplace health and safety with particular emphasis on equipment lock out and use of personal protective equipment
 - communication reporting lines
 - recording and reporting processing problems and equipment faults.
 -

Assessment Conditions

The following resources must be made available:

- one or more of the following types of carriages:
 - standard three headed dog carriages
 - flat top carriages with head rigs
- one or more of the following types of saws:
 - circular saws
 - bench saws
 - overhead frame saws or band saws
- mechanical feed
- conveyor system to transport logs to and from the sawing area
- maintenance tools and equipment for saws
- consumable saw blades
- personal protective equipment suitable for rounding logs

- a selection of logs
- manufacturers':
 - instructions for equipment use
 - recommendations for repairing and maintaining equipment
- work order with specific instructions for sawing flitches and cants and despatch to downstream processing
- template documents for recording equipment faults and maintenance requirements
- relevant personnel for the purposes of communicating information
- organisational policies and procedures for sawing flitches and cants.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
