FWPSS00041 Cutting Timber to Length and Angle Skill Set

Release 1

FWPSS00041 Cutting Timber to Length and Angle Skill Set

Modification History

Release	Comments
Release 1	This version released with FWP Training Package Version 6.0.

Description

This skill set is designed to cover the knowledge and skills required to cut timber to specified lengths and angles for use in the fabrication of timber wall frames and/or floor or roof trusses. It includes applying knowledge and skills to work and handle materials safely in a manufacturing environment.

Pathways Information

These units of competency provide credit towards FWP30920 Certificate III in Timber Frame or Truss Manufacture from the FWP Forest and Wood Products Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

- FWPCOR2205 Follow WHS policies and procedures
- FWPCOT3226 Assess timber for manufacturing potential
- FWPCOT3234 Cut material using CNC sizing machines
- FWPTMM2205 Cut material to length and angles
- TLID1001 Shift materials safely using manual handling methods

Target Group

This skill set is for entry level fabricators working in the timber frame and truss manufacturing industry.

Suggested words for Statement of Attainment

These competencies from the *FWP Forest and Wood Products Training Package* and the *TLI Transport and Logistics Training Package* meet the industry requirements for cutting timber for the fabrication of timber frames and trusses.
