Release 1

FWPSS00069 Entry into a Wood Machinist Role Skill Set

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 8.0.

Description

This skill set is designed to equip individuals with the technical skills and knowledge required to begin work as a Wood Machinist. It covers how to assess timber supplied for machining operations against quality requirements and specifications, how to cut timber or engineered wood product with a table saw, and how to clear timber products and waste material from a sawing or machining operation. It includes how to operate a thicknesser to dress timber and how to diagnose and correct cutter performance. The skills and knowledge required for shutting down, maintaining and conducting routine fault repairs on wood machining equipment are also covered.

Pathways Information

These units of competency provide credit towards *FWP31122 Certificate III in Wood Machining* from the FWP Forest and Wood Products Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.
