Assessment Requirements for FWPWPP2203 Repair veneer and ply

Release: 1

Assessment Requirements for FWPWPP2203 Repair veneer and ply

Modification History

Release	Comment
1	Replaces equivalent unit FPIWPP2203B Repair veneer and ply, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format. Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- complete repairs in line with individual work orders for the following types of material:
 - single thickness veneer
 - panel products
 - manufactured plywood
 - select and use the appropriate filler to complete repairs
- complete repairs for the following types of defects:
 - splits
 - voids
 - splintered and missing edges
- for each of the above jobs, visually inspect materials and re-classify their quality and use after repair.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- environmental protection practices for repairing veneer and ply:
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing timber

- disposing of hazardous substances
- typical flow of material supply in and out of the repair area
- features of typical defects in single thickness veneer, panel products and manufactured plywood:
 - splits
 - voids
 - splintered and missing edges
- typical work flow processes and repair techniques used to fill veneer, panel and plywood to an acceptable level for continued use
- properties, at a basic level of understanding, of fillers and their uses for repairing veneer, panel and plywood:
 - ready to use pre-mix fillers
 - two part fillers
 - waxes
- methods used to:
 - mix fillers
 - safely store fillers
- key features of and applicable terminology for industry standard grades for re-classifying quality of repaired veneer, panel and plywood
- organisational procedures specific to repairing veneer and ply:
 - workplace health and safety with particular emphasis on use of personal protective equipment and handling hazardous substances
 - communication reporting lines
 - recording and reporting production outcomes.

Assessment Conditions

The following resources must be made available:

- tools and equipment for repairing veneer and ply
- personal protective equipment suitable for repairing veneer and ply
- single thickness veneer, manufactured plywood and panel products; panels must include one or more of the following:
 - medium density
 - fibreboard
 - chipboard
 - fibreboard
- fillers which must include one or more of the following:
 - ready to use pre-mix fillers
 - two part fillers
 - waxes
- mending tape

- manufacturers':
 - instructions for use equipment
 - safety data sheets for fillers
- work order with specific instructions for repairing veneer and ply
- template documents for recording production outcomes
- relevant personnel for the purposes of communicating information
- organisational procedures for repairing veneer and ply.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
