Qualification Description

This qualification reflects the role of optical dispensers who dispense and supply optical appliances as prescribed by optometrists and/or ophthalmologists in accordance with Australian standards. Optical dispensers practice in a range of environments including optical dispensaries, optometric practices and laboratories. They may be self-employed or employed by another optical dispenser, an optometrist, a major optical dispensing company or other retailers.

To achieve this qualification, the candidate must have completed at least 100 hours of work as detailed in the Assessment Requirements of units of competency.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Note this qualifications supports industry accreditation as a dispensing optician in New Zealand.

Packaging Rules

Total number of units = 14

- 9 core units
- 5 elective units, consisting of:
 - up to 5 units from the electives listed below, any endorsed Training Package or accredited course – these units must be relevant to the work outcome.
