Assessment Requirements for HLTAHA024 Work within a community rehabilitation environment

Release: 1

Assessment Requirements for HLTAHA024 Work within a community rehabilitation environment

Modification History

Release	Comments
Release 1	This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to the elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements. Minimum work hours added. Significant change to knowledge evidence.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- facilitated involvement and participation of 3 clients, 1 in a simulated environment and 2 in the workplace, in the rehabilitation process within the context of rehabilitation plans
- performed the activities outlined in the performance criteria of this unit during a period of at least 120 hours of work

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- the importance and meaning of home and belongings to clients and the nature and significance of working in the client's home and community settings
- the importance and practice of participation, social justice and equity
- values and philosophies of community rehabilitation in practice
- different frameworks, approaches and models of community rehabilitation
- cross cultural issues in a community rehabilitation context
- community advocacy groups
- importance of principles and practices to enhance sustainability in the workplace, including environmental, economic, workforce and social sustainability
- international classification of functioning, disability and health
- organisation policy and procedures in relation to:

- infection control
- PPE
- risk assessment and risk management associated with working in client homes and the community
- legal and ethical considerations relevant to allied health:
 - duty of care
 - human rights
 - privacy, confidentiality and disclosure
 - work role boundaries – responsibilities and limitations
 - work health and safety
- relevant national and/or state-based community services and programs and local community care services
- medico-legal and legal implications of working outside the plans, specifically treatment style plan

Assessment Conditions

All aspects of the performance evidence must have been demonstrated using simulation prior to being demonstrated in a therapeutic workplace under direction and supervision (direct, indirect, remote) as determined by the health professional.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including rehabilitation plans and any relevant equipment outlined in the plan
- modelling of industry operating conditions and contingencies, including provision of services to real people

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
