Assessment Requirements for HLTAHA033

Conduct group sessions for individual outcomes

Release: 1

Assessment Requirements for HLTAHA033 Conduct group sessions for individual outcomes

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- plan and conduct three group sessions, one in a simulation and two in the workplace, to meet a range of individual outcomes
- undertake an evaluation process in relation to one of the group sessions in the workplace
- perform the activities outlined in the performance criteria of this unit during a period of at least 120 hours of allied health assistance work. At least 60% of this work must be carried out in an allied health workplace. The remaining 40% may be carried out in a simulated environment, if an allied health workplace is unavailable.

Knowledge Evidence

Demonstrate the knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- protocols for escalation of risks
- allied health core competencies:
 - person-centred care
 - individual therapy
 - group therapy
 - communication of information
 - equipment and environment
- principles of group dynamics and the nature of group learning
- factors that affect behaviour in groups
- group roles, leadership and facilitator techniques
- organisational policy and procedures in relation to:
 - confidentiality:
 - disclosure
 - privacy
 - duty of care
 - documentation:
 - reporting
 - recording data

- written communication to Allied Health Professional
- manufacturer instructions
- professional behaviour and presentation
- infection control practices
- work health and safety (WHS)
- manual handling
- supervision and delegation
- evaluation processes
- discrimination
- human rights
- public liability and professional indemnity insurance
- work role boundaries, responsibilities and limitations including when and how to provide feedback about person
- principles of empowering the older person
- principles of empowering people living with disability or serious mental illness
- changes related to ageing
- concepts of holistic health and wellbeing
- social determinants of health
- concepts of the medical model, the biopsychosocial models and the human rights-based approach of allied health interventions
- principles of choice and control
- concept of reablement
- allied health settings:
 - hospital
 - community health
 - mental health
 - disability sector
 - aged care sectors.

Assessment Conditions

Skills may be demonstrated in the workplace, or in a simulated environment, as per the conditions outlined in the performance evidence.

Assessment must ensure:

- access to suitable facilities, equipment and resources that reflect real working conditions and model industry operating conditions and contingencies
- access to manufacturer instructions
- access to individualised plans and any relevant equipment outlined in the plan
- access to organisational policies and procedures
- opportunities for engagement with real people accessing allied health services.

Assessors must satisfy the Standards for Registered Training Organisations requirements for assessors, and:

- be a Certificate IV qualified Allied Health Assistant with a minimum of three years of professional experience in allied health services, or
- a registered Allied Health Professional.
