Assessment Requirements for HLTAHW033 Maintain community health profile

Release: 2

Assessment Requirements for HLT AHW033 Maintain community health profile

Modification History

Release	Comments
Release 2	Updated: • assessor requirements statement • foundation skills lead in statement • licensing statement • modification history to reflect 2012 standards Equivalent outcome.
Release 1	This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- used research information and community consultation as a basis for developing a community health profile for an Aboriginal and/or Torres Strait Islander community
- reviewed and amended the profile as required
- consulted key people, organisations and community representatives
- presented information to organisations and community representatives in a clear manner, using culturally appropriate and safe language and gestures.

All performance criteria must be demonstrated at least once.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant policies, protocols and procedures of the organisation, governments and other organisations
- research ethics
- local resources
- project management
- sources of information and ways to access them
- formats for compiling information
- principles of community development
- community ownership of data
- research methodologies

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.
