primary health care**

Assessment Requirements for HLT AHW066 Manage the delivery of Aboriginal and/or Torres Strait Islander primary health care

Modification History

Release	Comments
Release 2	Updated: • assessor requirements statement • foundation skills lead in statement • licensing statement • modification history to reflect 2012 standards Equivalent outcome.
Release 1	This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements. Pre-requisite unit removed.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned and managed the delivery of at least one health care service and/or program to effectively address the needs of Aboriginal and/or Torres Strait Islander communities, including:
 - consulting with the community as part of review and revision of services to identify and implement service improvements as an ongoing process
 - advocating on behalf the primary health care service to:
 - promote services and programs
 - seek resources
 - promote staff
 - conducting and reporting on research, using analytical skills applied to quantitative and qualitative data

- formulating clear, valid and functional recommendations
- participating in discussions and negotiations with community members regarding the provision of health services
- participating in and monitoring quality assurance programs.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Aboriginal and/or Torres Strait Islander community primary health needs, treatment options and any associated issues
- legislation, organisational guidelines and community requirements relating to health service provision
- up-to-date knowledge of principles and practice of primary health care and resources required to address specific community needs
- referral resources and processes
- traditional health, healing and medicines
- individual and community health including biology and development, psychology, disease and treatment options, culture and tradition
- key individuals and agencies with local, regional and broader responsibilities related to primary health care provision
- evaluation methodology to determine the effectiveness of services delivered.

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care
