HLTDEF001 Participate in a land based deployed health capability

Release: 1

HLTDEF001 Participate in a land based deployed health capability

Modification History

Release	Comments
Release 1	This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency requirements. Significant change to knowledge evidence.

Application

This unit describes the skills and knowledge required to prepare for deployment and function effectively at the operational level as part of a deployed health element.

This unit applies to Australian Defence Force (ADF) personnel working under direction in the context of a land based operational environment. Operational environments vary in accordance with Government directives and include war fighting, peacekeeping and humanitarian assistance.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element

1. Prepare for deployment

- 1.1 Check stores and equipment to ensure they are operational and prepared for movement and complete required documentation
- 1.2 Safely pack and load dedicated stores and equipment to facilitate anticipated transport outcomes
- 1.3 Complete personal preparation for deployment according to requirements

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element

2. Participate in deployment activities

- 2.1 Use effective communication and teamwork skills
- 2.2 Prioritise work in consultation with other members of the team
- 2.3 Set up designated work areas, stores and equipment for use
- 2.4 Identify equipment and basic facility shortfalls and report to supervisor

3. Operate within a deployed health capability element

- 3.1 Receive and transfer patients in accordance with operational procedures
- 3.2 Adapt to specific deployment requirements in performance of operational duties

4. Participate in re-deployment activities

- 4.1 Work effectively as part of a team to re-deploy the health element
- 4.2 Refurbish stores and equipment for future operations
- 4.3 Identify stores and equipment shortfalls and report to supervisor
- 4.4 Safely pack and load dedicated stores and equipment for redeployment
- 4.5 Participate in debriefing/evaluation activities to improve future deployments and address individual's needs

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this

unit of competency.

Unit Mapping Information

No equivalent unit.
