Assessment Requirements for HLTHSS001 Operate an incinerator

Release: 1

Assessment Requirements for HLT HSS001 Operate an incinerator

Modification History

Release	Comments
Release 1	This version was released in <i>HLT Health Training Package release 3.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency requirements. Significant change to knowledge evidence. Supersedes HLTGM206D

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- operated an incinerator on 3 occasions, including:
 - preparing the incinerator and waste for incineration and disposing of incinerator waste
 - shutting down the incinerator, taking environmental measurements and completing documentation requirements.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- manufacturer instructions for incinerator operation and maintenance
- waste handling policies and procedures for incinerator operation, including workplace health and safety (WHS), infection control, waste storage and disposal
- types, purpose and use of personal protective equipment
- waste appropriate for incineration
- relevant state/territory and local environmental legislation and regulation, including:
 - environmental protection agency guidelines

- council regulations
- pollution regulations
- incinerator license conditions
- emission standards
- temperature standards
- waste storage regulations.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - incinerator
 - WHS and infection control policy in relation to operating an incinerator
 - relevant state/territory and local environmental legislation and regulations
 - manufacturer instructions for operation and maintenance
 - tools and materials relevant to incinerator maintenance process
 - suitable work area appropriate to incinerator maintenance process
 - personal protective equipment
- modelling of industry operating conditions.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
