Assessment Requirements for HLTOHC005 Use basic oral health screening tools

Release: 1

Assessment Requirements for HLTOHC005 Use basic oral health screening tools

Modification History

Release	Comments
Release 1	This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages. Minimal changes to the elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- communicated effectively with 5 patients to establish a relationship of trust to provide oral health information, including gaining patient's understanding of how the oral health screening tools are used
- used relevant endorsed oral health screening tool/s and techniques on 5 different patients, including:
 - interpreting and reporting results
 - documentation of findings
 - referral of patients as required

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- how to use the relevant endorsed oral health screening tool/s and techniques including:
 - preparation of screening tools
 - communication strategies to aid in screening instrument questioning
 - evaluation of tool effectiveness
 - follow-up on unsuccessful screening

- oral health screening instruments and ways to respond to the results, including:
 - referral pathways and processes
 - screening tools, procedures and associated rationale for use
 - workplace policies, procedures and programs for screening
- relevant state/territory and national government policy, programs and reporting processes for oral health

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
