 - working within scope of practice
 - presenting symptoms that require referral to a medical practitioner
 - work health and safety
- referral options for practitioners:
 - professional health services including complementary health modalities
 - community resources and support services
 - types and availability of further medical testing
- factors and barriers that may impact on assessment, including:
 - physical
 - psychological
 - cultural
- factors that affect individual health status, including:
 - constitution
 - lifestyle
 - diet
 - personal and medical history
 - values and attitudes
 - balance of rest and activity
 - physical environment
 - social environment
- factors for consideration for different genders and ages
- client information required for assessment and the scope and depth of information needed around:
 - client objectives and expectations
 - client history and its components
 - client current state of health

- signs and symptoms:
 - onset
 - duration
 - location
 - quality and severity
 - non-verbal
- different ways that signs and symptoms of conditions present and how these are interpreted in a Shiatsu framework:
 - physical
 - psychological
 - social
 - qi
- features of signs and symptoms
- principles and philosophy of Shiatsu therapy framework:
 - relationships between body types and symptoms according five phases theory
 - primary functions of meridians and meridian extensions developed by masunaga
 - yin and yang
 - character and function of tsubo (acu-points)
 - the eight principles of differentiation (ba gang bian zheng)
- Shiatsu diagnostic techniques and considerations:
 - the four methods of diagnosis (si zhen)
 - back yu points and front mu points and diagnostic zones of hara
 - diagnostic ability of face, complexion, posture and vitality
 - palpatory diagnostic techniques and palpatory sensitivity to conditions of kyo/jitsu (empty/full) meridians
 - listening
 - smelling
 - Masunaga meridian palpation
- possible reactions, contra-indications to treatment and/or limitations for assessment
- pathophysiology of common disease states according to Shiatsu framework:
 - qi imbalances
 - physical
 - emotional
 - mental
