ICPPRN411 Mount and demount flexographic plates for complex printing

Release: 1

ICPPRN411 Mount and demount flexographic plates for complex printing

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to mount and demount flexographic plates for non-routine printing.

It applies to individuals working in the printing and graphic pre-press sector of the printing and graphic arts industry. They design layouts and assemble text and graphics into page formats for printing, and set up, monitor and operate equipment and machinery as well as apply solutions to a defined range of problems associated with the print medium, and analyse and evaluate information from a variety of sources. They may also provide leadership and guidance to others with some limited responsibility for the output of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Printing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Confirm non-routine job specifications	1.1 Job requirements are read and interpreted from job documentation or production control system 1.2 Set up is planned and carried out correctly in minimum time with minimum wastage 1.3 Prior inspections are completed and signed off
2. Prepare flexographic plates	2.1 Plate height is measured according to non-routine job specifications

ELEMENT	PERFORMANCE CRITERIA
	2.2 Plates are trimmed and prepared according to mounting system requirements 2.3 Mounting adhesive is selected to achieve correct Pitch Circle Diameter (PCD) of specified plate cylinders and gears
3. Prepare plate cylinder	3.1 Plate cylinders/seamless sleeves are selected, cleaned and prepared and correct gears are mounted OR 3.2 Sleeves and correct gears on mandrels are selected, cleaned, prepared and mounted to meet non-routine job specifications 3.3 Total Indicated Runout (TIR) is checked to be within specified tolerances on plate cylinders 3.4 Selected mounting adhesive is applied to plate cylinders
4. Mount and demount flexographic plates on mounting/proofing machine	4.1 Plates are prepared and mounted on cylinders using pin mounts or microdot systems or sleeves according to chart number/print direction OR 4.2 Plate mounting sheet is prepared to meet non-routine job specifications 4.3 Plates are mounted to position on plate mounting sheet or camera targets 4.4 Plate mounting sheet is installed and tensioned onto plate cylinder to specified chart number/print direction 4.5 Correct cleaning solution and brush is used to clean plate 4.6 Correct tools are used to demount plate without damaging plate 4.7 Plate is visually checked for damage 4.8 Plate is prepared for storage and then stored correctly according to enterprise procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
-------	----------------------	-------------

Reading	1.1, 2.1, 3.2, 4.2	Recognises and interprets text to establish job requirements from information contained within relevant procedures and specifications
Writing	1.3	Completes workplace forms accurately
Numeracy	2.1, 2.2, 2.3, 3.3, 4.1, 4.4	Uses simple mathematical calculations and arranges sequential numerical information
Navigate the world of work	4.8	Complies with legislative requirements and follows organisational policies and procedures relevant to own role
Get the work done	1.1-1.3, 2.1-2.3, 3.1-3.4, 4.1-4.8	- Takes responsibility for planning and organising own workload, identifying ways of sequencing and combining elements for greater efficiency and assembles required resources - Responds to predictable problems and implements standard or logical solutions related to role in immediate work environment - Reads data from electronic monitoring and control systems

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
ICPPRN411 Mount and demount flexographic plates for complex printing	ICPPR411C Mount and demount flexographic plates for complex printing	Updated to meet Standards for Training Packages	Equivalent unit
