Assessment Requirements for ICPPRP2250

Produce graphics using graphics applications

Release: 1

Assessment Requirements for ICPPRP2250 Produce graphics using graphics applications

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of the unit, including evidence of the ability to:

- develop two graphics based on two different client briefs using a high-end application.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- graphics formats
- required applications for graphics production
- methods for manipulating graphics
- different colour models
- different effects that may be applied to an object
- object selection and editing, individually and in groups
- use of filters or effects
- styles and when they may be required
- text and formatting features used in graphics
- key requirements when interpreting a brief
- work health and safety (WHS) requirements that apply to working on a computer
- manufacturer manuals, work health and safety and enterprise documentation, including their location and purpose.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the area of work.

This includes access to:

- industry standard computer
- software applications for graphics production.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
