Assessment Requirements for ICTDMT407 Incorporate video assets into media presentations

Release: 1

Assessment Requirements for ICTDMT407 Incorporate video assets into media presentations

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Supersedes and is equivalent to ICTDMT501 Incorporate and edit digital video.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare at least two video assets and incorporate them into at least two different interactive media presentations.

In the course of the above, the candidate must:

- prepare video sequences within production deadlines
- interpret, visualise and produce creative concepts
- apply required organisational policies and procedures.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- functions and features of video-editing software and hardware
- common types of media presentation technology
- features of video assets, including:
 - audio effects
 - visual effects
 - textual effects
- techniques to safely export and save video assets
- key techniques for video editing, including:
 - cutting
 - time stamping
 - sequencing

- montaging
- controlling video frame rates
- functions and features of single and multiple edited video tracks
- key electronic and digital language and terminology
- key copyright considerations associated with designing and creating video assets
- organisational policies and procedures, and legislative requirements relating to work tasks.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- video-editing and media presentation software, hardware, components and resources
- video-formatting and media presentation specifications
- opportunities for interaction with others
- work brief and organisational policies and procedures required to demonstrate the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
