**Release: 1**

# Assessment Requirements for ICTICT221 Identify and use specific industry standard technologies

## Modification History

| Release   | Comments                                                                                                     |
|-----------|--------------------------------------------------------------------------------------------------------------|
| Release 1 | This version first released with ICT Information and Communications Technology Training Package Version 6.0. |

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify, implement and evaluate at least three industry standard technologies
- use at least one feature and at least one function of each industry standard technology above.

In the course of the above, the candidate must:

- comply with task and organisational requirements.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry standard technology trends and directions in Information and Communications Technology (ICT), and major industry technology standards used in specified area
- vendor product directions
- industry standard hardware and software products and their general features and capabilities
- information gathering methodologies.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- required industry standard technologies, features and functions that may assist in identifying and using specific industry standard technologies
- required hardware, software and its components.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
