| Release 1 | This version first released with ICT Information and Communications Technology Training Package Version 7.0. |

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- produce at least two comprehensive reports that evaluate the economic and political influences on the networking industry in Australia and the impact of regulations and legislation on the networking industry
- produce at least two summary reports that evaluate the impact of legislation on planning processes and accessibility to networks.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- identify economic factors that can affect growth
- functions and features of producing evaluation reports
- policies and procedures of:
  - Australian Competition and Consumer Commission (ACCC)
  - Universal Services Obligation (USO)
- the implications of Australian federal government regulation and deregulation on the networking industry
- the purpose and implementation of networking legislation.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation
- planning processes

- databases
- licensing requirements
- other related procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
