Assessment Requirements for ICTPMG601 Establish ICT project governance

Release: 1

Assessment Requirements for ICTPMG601 Establish ICT project governance

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- assess the project environment
- establish or implement an information and communications technology (ICT) project management governance framework
- negotiate with stakeholders to agree achievable project objectives.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify the organisation's industry
- outline the organisation's current information systems and processes
- explain organisational policies and procedures, including:
 - project management and procurement policies
 - environment
 - duty of care
 - contract
 - company
 - freedom of information
 - industrial relations
 - privacy and confidentiality
 - due diligence
 - records management
- explain project governance approaches and methods
- outline relevant legislation and regulations that impact on project governance.

Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the ICT project management field of work, and include access to office equipment, materials and industry software packages.

Assessors must satisfy NVR/AQTF assessor requirements.
