Assessment Requirements for ICTPMG613 Manage ICT project planning

Release: 1

Assessment Requirements for ICTPMG613 Manage ICT project planning

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and manage Information and Communications Technology (ICT) project plans on at least two occasions.

In the course of the above, the candidate must:

- select methodologies
- develop project schedules
- develop project budgets
- establish budgetary controls.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- current and emerging industry practice in relation to:
 - estimation techniques and methods
 - planning techniques and methods
 - project management methodologies
 - system development methodologies
- impact of business needs on project management, including implications for project control and expected returns on business investment.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- industry software packages
- an organisation's identified problem, opportunity or unfulfilled legislative need.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
