Assessment Requirements for ICTPMG615 Manage ICT project closure

Release: 1

Assessment Requirements for ICTPMG615 Manage ICT project closure

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least one complex ICT project closure, including:
 - reviewing project documentation and project metrics
 - analysing project performance
 - recommending and planning decommissioning of project.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- role of project stakeholders relating to managing ICT project closure
- problem-solving techniques to address issues relating to project closure
- project management methods, practices and processes relating to project closure
- project performance metrics relating to managing ICT project closure.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- industry software packages.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
