ICTSS00058 ACMA Advanced Cabler Registration Skill Set

Release 1

ICTSS00058 ACMA Advanced Cabler Registration Skill Set

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 2.0.

Description

This skill set covers the additional training required for an open registered cabler to install, maintain, test and certify copper, fibre and coaxial installations in customer premises in accordance with Australian Communications and Media Authority (ACMA) requirements.

Pathways Information

This skill set provides credit towards ICT30515 Certificate III in Telecommunications Technology.

Licensing/Regulatory Information

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the ICT Implementation Guide Companion Volume or the relevant regulator for details of licensing, legislative or certification requirements.

Skill Set Requirements

ICTCBL301 Install, terminate and certify structured cabling installation
ICTCBL302 Install and terminate optical fibre cable on customer premises
ICTCBL303 Install and terminate coaxial cable
ICTCBL304 Perform cable and system test on customer premises

Target Group

This skill set is for ACMA open registered cablers who need additional training to carry out specialist work.

Suggested words for Statement of Attainment

These units of competency contribute to the Australian Communications and Media Authority requirements for mandatory specialist cabling endorsement of an existing open registered cabler.
