Modification History

Release	Comments
Release 2	This version released with ICT Information and Communications Technology Training Package Version 7.0.
Release 1	This version released with ICT Information and Communications Technology Training Package Version 5.0.

Description

This skill set covers the additional training required for an open registered cabler to install, maintain, test and certify copper, fibre and coaxial installations in customer premises in accordance with Australian Communications and Media Authority (ACMA) requirements.

Pathways Information

This skill set provides credit towards ICT30519 Certificate III in Telecommunications Technology.

Licensing/Regulatory Information

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the ICT Implementation Guide Companion Volume or the relevant regulator for details of licensing, legislative or certification requirements.

Skill Set Requirements

ICTCBL247 Install, maintain and modify customer premises communications cabling:
ACMA Open Rule

ICTCBL301 Install, terminate and certify structured cabling installation
ICTCBL303 Install and terminate coaxial cable
ICTCBL322 Install, test and terminate optical fibre cable on customer premises
ICTCBL323 Test cables and systems on customer premises
ICTTEN208 Use electrical skills when working with telecommunications networks
ICTWHS204 Follow work health and safety and environmental policy and procedures

Target Group

This skill set is for ACMA open registered cablers who need additional training to carry out specialist work.

Suggested words for Statement of Attainment

These units of competency contribute to the Australian Communications and Media Authority requirements for mandatory specialist cabling endorsement of an existing open registered cabler.
