ICTSS00115 XG Cellular Network Infrastructure Rollout Skill Set

Release 1

ICTSS00115 XG Cellular Network Infrastructure Rollout Skill Set

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 7.0.

Description

This skill set addresses the skills and knowledge required to support the rollout of cellular wireless networks, including the fifth generation (5G) network and subsequent cellular network generations, in a range of telecommunications industry occupations.

Pathways Information

The units provide credit towards ICT30419 Certificate III in Telecommunications Network Build and Operation, ICT41219 Certificate IV in Telecommunications Engineering Technology and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

ICTTEN312 Install telecommunications network equipment

ICTTEN409 Commission an electronic system

ICTTEN410 Locate, diagnose and rectify faults

Target Group

This skill set is for those who work in roles that support the rollout of cellular wireless networks, including the 5G network and subsequent cellular network generations.

Suggested words for Statement of Attainment

These units of competency from the ICT Training Package meet industry requirements for supporting the rollout of cellular wireless networks.
