Release 1

ICTSS00121 Extended Reality Skill Set

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Newly created to equip learners with skills across in-demand technologies.

Description

This skill set addresses the skills and knowledge required to identify and apply extended reality solutions to improve a variety of information and communications technology (ICT) functions and processes.

Pathways Information

The units provide credit towards ICT40120 Certificate IV in Information Technology and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

ICTXRE401 Apply augmented reality solutions in organisations

ICTXRE402 Apply virtual reality solutions in organisations

ICTXRE403 Design mixed reality solutions

Target Group

This skill set is for individuals who work in information and communications technology (ICT) roles, such as software developers and designers, who contribute to activities required for implementing extended reality solutions and building virtual workplaces in workplace contexts.

Suggested words for Statement of Attainment

These units of competency from the ICT Information and Communications Technology Training Package meet industry requirements for designing and applying augmented, virtual and mixed reality solutions in a range of workplace contexts.
