Release 1

ICTSS00130 Intermediate Digital Skills for Small Business Skill Set

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Newly created to equip learners with skills across in-demand technologies.

Description

This skill set addresses the skills and knowledge required to support the digital capabilities of small businesses, through evaluating and implementing a variety of strategies, technologies, and practices while maintaining security.

Pathways Information

The units provide credit towards BSB50120 Diploma of Business, ICT30120 Certificate III in Information Technology, ICT40120 Certificate IV in Information Technology, and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

BSBTEC501 Develop and implement an e-commerce strategy

BSBXCS402 Promote workplace cyber security awareness and best practices

ICTICT318 Validate test cases and develop proof of concepts

ICTICT426 Identify and evaluate emerging technologies and practices

ICTICT452 Support the implementation of assistive technologies

Target Group

This skill set is for individuals who work in small businesses, including small business operators and other related roles responsible for applying practices to manage digital operations in small workplace contexts.

Suggested words for Statement of Attainment

These units of competency from the BSB Business Services and ICT Information and Communications Technology Training Packages meet industry requirements for supporting and improving the digital capabilities of small businesses in ICT contexts.
