Release 1

ICTSS00180 Visual Communications Specialist Skill Set

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Supersedes and is not equivalent to ICTSS00054 Visual Communications Specialist Skill Set.

Description

This skill set addresses the skills and knowledge required to develop visual communications content, specialising in video and digital image components.

Pathways Information

This skill set provides credit towards CUA31120 Certificate III in Visual Arts, ICT30120 Certificate III in Information Technology, and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

CUADIG304 Create visual design components

CUADIG311 Prepare video assets

ICTWEB305 Produce digital images for the web

Target Group

This skill set is for individuals who work in virtualisation roles, including visual content specialists, and other related roles, who are responsible for developing video assets and digital images for web purposes.

Suggested words for Statement of Attainment

These units of competency from the CUA Creative Arts and Culture and ICT Information and Communications Technology Training Packages meet competency requirements for skills in developing visual components for websites.
