ICTSS00189 Digital Antenna System and Component Installation Skill Set

Release 1

ICTSS00189 Digital Antenna System and Component Installation Skill Set

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Supersedes and is not equivalent to ICTSS00069 Domestic Digital Television Antenna Installation Skill Set.

Description

This skill set addresses the skills and knowledge required to install and maintain terrestrial antenna systems and components.

Pathways Information

This skill set provides credit towards ICT20219 Certificate II in Telecommunications Network Build and Operation, ICT30519 Certificate III in Telecommunications Technology, ICT41119 Certificate IV in Telecommunications Network Design, and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

ICTCBL303 Install and terminate coaxial cable

ICTDRE301 Install digital reception equipment

ICTRFN202 Install a terrestrial antenna

ICTRFN407 Conduct radio frequency measurements

ICTTEN202 Use hand and power tools

ICTWHS204 Follow work health and safety and environmental policy and procedures

Target Group

This skill set is for individuals who work in telecommunication roles, including digital receptionists, and other related roles, who are responsible for installing and maintaining terrestrial antenna systems and associated digital reception equipment.

Suggested words for Statement of Attainment

These units of competency from the ICT Information and Communications Technology Training Package meet competency requirements for installing and maintaining terrestrial antenna systems and their components.
