**Assessment Requirements for MARB026
Apply knowledge of marine terminology
and port procedures**

Release: 1

Assessment Requirements for MARB026 Apply knowledge of marine terminology and port procedures

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- communicating effectively with team members and other personnel
- locating, reading, interpreting and applying relevant documentation and procedures
- maintaining communications with team members and other personnel
- planning and organising own work activities
- working collaboratively with others.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- basic research methodology
- marine terms and terminology relevant to ports/wharfs/terminals and mooring and unmooring activities
- mooring and unmooring equipment
- nature, role and functions of relevant professional associations, unions, industry bodies and regulators
- port emergency and evacuation procedures
- port/wharf/terminal site layout
- relevant legislation related to port procedures
- relevant maritime websites to locate current and relevant information
- relevant work health and safety (WHS)/occupational health and safety (OHS) legislation, codes of practice, policies and procedures
- roles, responsibility and duties undertaken by staff
- types and characteristics of mooring lines
- types of port/wharf/terminal, characteristics and features
- typical superstructure configurations and general deck layouts

- vessel types, classification, construction, size and capacity
- workplace processes, policies and procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations or where this is not available, in simulated workplace operational situations or an industry-approved marine operations site that replicate workplace conditions.

Resources for assessment include access to:

- a range of relevant exercises, case studies and/or other simulated practical and knowledge assessments
- relevant documentation including workplace procedures, regulations, codes of practice and operation manuals.
