Assessment Requirements for MARF026 Follow port and terminal security procedures

Release: 1

Assessment Requirements for MARF026 Follow port and terminal security procedures

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying security procedures and basic security legislative requirements
- being aware of one's surroundings and changes to these surroundings
- identifying a range of security threats and risks relevant to vessel and port security
- monitoring and anticipating security problems and risks and taking appropriate action
- observing chain of command and communication channels
- operating security equipment
- reading and interpreting relevant instructions, procedures and other information
- reporting security threats and risks relevant to vessel and port security and providing appropriate level of detail in these reports
- working as a team with others on matters relevant to maintaining vessel and port security.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- communication chain of command
- communication modes, and security equipment and systems relevant to the maritime environment
- dangerous substances and devices, and awareness of the damage they can cause
- duty of care requirements of self and others
- general procedures for emergency, evacuation and first aid response
- handling security related information and security related communications
- international marine security policy and responsibilities of governments, organisations and individuals
- maritime security levels, and their impact on security measures and procedures aboard ship and in port facilities

- maritime security terms and definitions including elements relating to piracy and armed robbery
- potential security threats including elements related to piracy and armed robbery
- procedures and legislation relevant to the maritime environment and own work role
- procedures for reporting incidents
- security related contingency plans
- techniques used to circumvent security measures
- training, drill and exercise requirements under relevant conventions, codes and International Maritime Organization (IMO) circulars including those relevant for anti-piracy and anti-armed robbery
- work health and safety (WHS)/occupational health and safety (OHS) requirements and work practices.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations, where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Resources for assessment must include access to:

- tools, equipment, machinery, materials and personal protective equipment currently used in industry, including:
 - alarms
 - locked and secure areas
 - mirrors
 - surveillance equipment
- applicable documentation such as legislation, regulations, codes of practice, workplace procedures and operation manuals.
