Assessment Requirements for MARM014

Develop marine survey reports

Release: 1

Assessment Requirements for MARM014 Develop marine survey reports

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- accessing and interpreting relevant information
- accessing and updating records electronically
- accessing web-based information services
- analysing and evaluating information and findings
- applying relevant work health and safety/occupational health and safety (WHS/OHS) requirements and work practices
- determining and confirming information, using questioning and active listening as required
- effectively liaising with internal and external authorities/agencies
- ensuring currency of relevant legislative and regulatory knowledge
- interviewing, consulting and negotiating with clients and others
- liaising with others, sharing information and listening
- making effective presentations
- performing calculations related to achieving required outcomes
- performing a marine survey on a domestic commercial vessel
- planning and sequencing work
- producing accurate and reliable information
- reading and interpreting documentation from a variety of sources, and recording and consolidating relevant related information
- using computer applications (word processing, spreadsheet, database, specific purpose computer systems) to assist in achieving required outcomes
- writing effective, high quality reports.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- effective listening techniques
- privacy requirements
- relevant legislation and industry codes of practice
- risk management principles and strategies
- risks related to:
 - survey reports
 - vessel condition, salvage, hire, sale
- safety management system (SMS)
- survey processes
- survey reporting principles and practice for different types of survey tasks
- WHS/OHS legislation, policies and procedures.

Assessment Conditions

This unit involves the skills and knowledge required to report on survey findings and provide information to clients and stakeholders on issues related to the marine survey.

Assessment must satisfy the National Vocational Education and Training Regulator (NVR)/Australian Quality Training Framework (AQTF) standards.

This unit applies to people working in the maritime industry as a domestic commercial vessel marine surveyor.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
