Assessment Requirements for MEM05055 Weld using oxy fuel gas welding process

Release: 2

Assessment Requirements for MEM05055 Weld using oxy fuel gas welding process

Modification History

Release 2. Quantum of hours of workplace practice removed. Supersedes and is equivalent to MEM05055 Weld using oxy fuel gas welding process (Release 1).

Release 1. New unit.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria on at least two (2) occasions and include:

- following work instructions, standard operating procedures and safe work practices
- identifying and interpreting specifications from drawings, sketches and verbal or written job instructions for oxy fuel gas to AS 1554 General Purpose or equivalent
- selecting appropriate weld and joint preparation methods
- setting up:
 - gas cylinders
 - hoses
 - blowpipes
 - tips and nozzles
 - regulators
 - flashback arrestors
- weld materials to AS 1554 General Purpose or equivalent using oxy fuel gas welding equipment while preventing distortion
- rectifying any defects
- completing weld records related to oxy fuel gas onto standard workplace forms.

Knowledge Evidence

Evidence required to demonstrate the required knowledge for this unit must be relevant to and satisfy the requirements of the elements and performance criteria and include knowledge of:

- safe welding practices and procedures and use of personal protective equipment (PPE)
- purpose of and setting up requirements of:
 - gas cylinders
 - hoses
 - blowpipes
 - tips and nozzles
 - regulators

- flashback arrestors
- material preparation for oxy fuel gas welding
- weld joint preparations
- filler rod materials
- causes of distortion for materials when welded
- causes of weld defects and methods of rectification
- standards for oxy fuel gas welding, including AS 1554 General Purpose or equivalent.

Assessment Conditions

- Assessors must:
 - have vocational competency in oxy fuel gas welding at least to the level being assessed with relevant industry knowledge and experience
 - satisfy the assessor requirements in the *Standards for Registered Training Organisations 2015* or its replacement and comply with the *National Vocational Education and Training Regulator Act 2011*, its replacement or equivalent legislation covering VET regulation in a non-referring state/territory as the case requires.
- Assessment must occur in a functioning workplace. Where assessment in the workplace would be unsafe, impractical or threatens the environment, assessment must occur in a sufficiently rigorous simulated environment that reflects the circumstances that would be experienced in a functioning workplace. Assessment must cover all aspects of workplace performance, including task skills, task management skills, contingency management skills and job role environment skills.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
