MSFBA2009 Construct metal louvre and canopy-hooded style awnings

Release: 1

MSFBA2009 Construct metal louvre and canopy-hooded style awnings

Modification History

Release 1 - New unit of competency

Application

This unit of competency covers constructing metal louvre and canopy-hooded style awnings. It applies to small to large scale enterprises.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Competency Field

Unit Sector

Blinds and awnings

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Plan and prepare work	1.1	Work health and safety (WHS) requirements, legislative requirements and workplace practices are observed throughout the work
		1.2	Personal protective equipment is selected and used
		1.3	Work orders are checked and confirmed
		1.4	Materials and hardware are selected and checked against work requirements
		1.5	Tools and equipment are selected and checked for safe operation
2	Cut stock and assemble awning	2.1	Metal stock is cut to manufacturer recommendations
		2.2	Metal is bent to form shape of awning

		2.3	Awning is assembled to manufacturer specifications
3	Make quality checks	3.1	Completed awnings are checked ensuring finished product matches work order
		3.2	Completed awning is tested within limits of normal operation for correct operation and parts of the work that do not comply with work order are repaired or re-worked
4	Complete work	4.1	Finished work is cleaned, protected and stored following workplace practices
		4.2	Tools and equipment are cleaned, maintained and stored
		4.3	Faulty tools and equipment are reported to appropriate personnel
		4.4	Work area is cleaned and waste is disposed of according to workplace practices
		4.5	Workplace documentation is completed

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency. Detail on appropriate performance levels for each furnishing unit of competency in reading, writing, oral communication and numeracy utilising the Australian Core Skills Framework (ACSF) are provided in the Furnishing Training Package Implementation Guide.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Range is restricted to essential operating conditions and any other variables essential to the work environment.

WHS requirements include:

- Commonwealth, state or territory legislation and regulations
- organisational safety policies and procedures
- the use of personal protective equipment and clothing
- firefighting equipment
- first aid equipment
- hazard and risk control and elimination of hazardous

	materials and substances
Legislative requirements include:	• manual handling, including lifting and carrying • applicable legislation from all levels of government that affect organisational operation • award and enterprise agreements • industrial relations • Australian Standards • confidentiality and privacy • the environment • equal employment opportunity (EEO) • anti-discrimination • relevant industry codes of practice • duty of care and heritage
