Assessment Requirements for MSFDG5004 Install heritage leadlight and stained glass

Release: 1

Assessment Requirements for MSFDG5004 Install heritage leadlight and stained glass

Modification History

Release 1. Supersedes and is equivalent to MSFSL5004 Install heritage leadlight and stained glass.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- submitted:
 - 1 installation work plan
 - 1 installation report
- completed 4 installations:
 - 2 leadlight panels
 - 2 stained glass panels
- produced a photographic sequence for each panel that shows the installation process.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- state or territory work health and safety legislation, regulations, standards and codes of practice relevant to the full range of processes for leadlight and stained glass operations
- organisational and site standards, requirements, policies and procedures for the installation of heritage leadlight and stained glass panels
- mathematical procedures for estimation and measurement
- leadlight and stained glass panels construction and repair terminology and techniques
- principles of the Australia International Council on Monuments and Sites (ICOMOS) Burra Charter
- types of glass and other materials historically used in the leadlight and stained glass industry, their characteristics, properties, uses and limitations
- types, use and safe operation of tools and equipment used in leadlight and stained glass industry
- installation methodologies, including engineering aspects of supporting leadlight and stained glass panels during the installation process
- problem identification and resolution for heritage leadlight and stained glass
- storage systems and labelling for stained glass and leadlight panels
- professions and trades working alongside or in conjunction with leadlight and stained glass conservation
- formats for documenting plans and reports.

-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - stained glass and leadlight sites for installations
 - stained glass and leadlighting tools, equipment and materials, including photographic devices required for Performance Evidence.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
