Assessment Requirements for MSFFL3086 Repair timber flooring

Release: 1

Assessment Requirements for MSFFL3086 Repair timber flooring

Modification History

Release 1. Supersedes and is equivalent to MSFFFL3040 Repair timber flooring.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- completed repairs involving removing and replacing at least 1 of each of the following:
 - a direct stick solid or engineered board that utilises a tongue and groove or click profile joint
 - a solid tongue and groove or engineered board installed over battens
 - a floating installation.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- mathematical procedures for estimation and measurement, including calculation of area and estimation of material requirements
- repair of timber flooring:
 - Australian Standards requirements
 - workplace safety system requirements
 - environmental protection and sustainability requirements
 - how to access manufacturer instructions
 - work flow
 - types, characteristics, and limitations of timber floors
 - causes of imperfections and damage to timber flooring
 - techniques and requirements for determining causes of damage:
 - moisture testing
 - ventilation checking and requirements
 - structural checking
 - pest inspection
 - types and uses of tools and equipment used during the repairing of timber flooring
 - characteristics of timber and concrete subfloors
- quality indicators for completed work
- procedures and protocols for the recording, reporting and maintenance of workplace records and information.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - timber flooring for repair
 - equipment, tools and materials to complete tasks in the Performance Evidence, including safety and personal protective equipment
 - work orders
 - workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
