MSFFL3088 Install timber flooring to joists

Release: 1

MSFFL3088 Install timber flooring to joists

Modification History

Release 1. Supersedes and is equivalent to MSFFL3051 Install timber flooring to joists.

Application

This unit describes the skills and knowledge required to plan, prepare, set out and install or repair internal timber flooring directly to joists and over sheet subfloors and external decking to joists in domestic and commercial settings.

This unit applies to flooring technicians installing flooring in accordance with pre-determined work orders.

There are no specific licensing requirements directly associated with this unit, however, some jurisdictions require the holder of this unit to be licensed or certified and users should check with the relevant authorities. Industry standards and codes of practice within Australia must also be applied. Access to construction sites requires certification of general induction training covered by the National Code of Practice for Induction for Construction Work (ASCC 2007).

Pre-requisite Unit

N/A

Unit Sector

Flooring technology
