Assessment Requirements for MSFFL3095 Fine sand timber flooring

Release: 1

Assessment Requirements for MSFFL3095 Fine sand timber flooring

Modification History

Release 1. Supersedes and is equivalent to MSFFL3042 Fine sand timber flooring.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- completed fine sanding for 3 complete rooms that individually or cumulatively include fine sanding for:
 - a new or existing solid floor (parquetry or tongue and groove)
 - a pre-finished or engineered floor.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- mathematical procedures for estimation and measurement, including calculation of area
- sanding operations:
 - Australian Standards requirements
 - workplace safety system requirements
 - work flow
 - environmental protection and sustainability requirements
 - floor condition requirements for sanding operations
 - characteristics, safe use, maintenance and limitations of tools and equipment for fine sanding
 - techniques for machine use, the types of problems that may occur and how to avoid and respond
- procedures and protocols for the recording, reporting and maintenance of workplace records and information.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - floors requiring fine sanding

- equipment, tools and materials to complete tasks in the Performance Evidence, including safety and personal protective equipment
- work orders
- workplace procedures.
-
