Assessment Requirements for MSFFL3096 Edge sand timber flooring

Release: 1

Assessment Requirements for MSFFL3096 Edge sand timber flooring

Modification History

Release 1. Supersedes and is equivalent to MSFFL3043 Edge sand timber flooring.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- completed 2 timber flooring preparations requiring edge sanding:
 - to grade the surface
 - to remove cupping, ridges, high points or deep scratches along the edges of the room, in corners or areas of reduced access
 - to blend the floor boards into the body of course and fine sanded timber floor.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- mathematical procedures for estimation and measurement, including calculation of area
- edge sanding operations:
 - Australian Standards requirements
 - workplace safety systems
 - work flow
 - environmental protection and sustainability requirements
 - floor conditions requirements for sanding operations
 - characteristics, safe use, maintenance and limitations of tools and equipment
 - techniques for machine use, the types of problems that may occur and how to avoid and respond
- procedures and protocols for the recording, reporting and maintenance of workplace records and information.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:

- floors requiring sanding
- equipment, tools and materials to complete tasks in the Performance Evidence, including safety and personal protective equipment
- work orders
- workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
