Assessment Requirements for MSFFL3112

Install patterned carpet

Release: 1

Assessment Requirements for MSFFL3112 Install patterned carpet

Modification History

Release 1. Supersedes and is equivalent to MSFFL3062 Install patterned and custom-designed carpet. Changes to title, application, elements and performance criteria to improve clarity and consistency across MSFFL units. Changes to assessment requirements.

Performance Evidence

There must be evidence the candidate has completed the tasks in the elements and performance criteria of this unit of competency and has demonstrated the ability to complete according to job instructions:

- at least three patterned carpet installations — where the subfloor has been adequately prepared — that include every one of the following at least once, in any combination:
 - carpet:
 - woven patterned carpet
 - tufted patterned carpet
 - designs:
 - pattern matching at seams and cross joints
 - patterned design concepts including patterned border
 - installation systems:
 - dual-bond
 - gripper strip
 - a box step stairway with at least three steps
 - a kite winder treads stairway with at least three steps
 - a bullnose step.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- manufacturer installation instructions and the relevant Australian standards for patterned carpet
- the safe and correct use of, and maintenance requirements for tools and equipment for, installing patterned carpet
- the most common issues that can arise when installing patterned carpet and how to avoid and respond to them
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - installing patterned carpet

- communication and reporting
- environmental protection and sustainability, including maximising resource utilisation and minimising waste
- quality indicators for completed work and process improvements
- work health and safety, including the use of personal protective equipment and safety data sheets
- work planning
- how to identify if a subfloor is suitable for installing patterned carpet
- how to identify if carpet underlay, grippers and patterned carpet are installed correctly.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - locations in which to install the patterned carpet and which already have underlay and grippers installed
 - patterned carpet
 - equipment and tools required for the activities set out in the elements and performance criteria, including those to control hazards
 - job instructions and workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
