Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|--------------------|---|
| 1 Prepare for work | 1.1 Work instructions are used to determine job requirements, including location, type of installation, tolerances, process, finish and quality |
| | 1.2 Installation location and sequence are planned |
| | 1.3 Procedures are determined for checking quality at each stage of the process |
| | 1.4 Work health and safety (WHS) requirements, including personal protection needs, are observed throughout the work |
| | 1.5 Hardware, fittings and attachments are collected |
| | 1.6 Tools and equipment suitable for installation are identified and checked for safe and effective operation |
| | 1.7 Fixing and joining devices are selected in line with work instructions and types of materials |

- | | | |
|---|---|--|
| | 1.8 | Required installation aids are selected and checked for suitability for purpose |
| 2 | Complete installation | 2.1 Site is prepared for installation |
| | 2.2 | Furnishing products are prepared to site requirements |
| | 2.3 | Hand and/or power tools and equipment are used in accordance with workplace requirements, including use of personal protective equipment |
| | 2.4 | Fixing methods are undertaken according to site conditions |
| | 2.5 | Installed furniture product is checked for compliance with specification |
| | 2.6 | Tops and/or appliances are installed in accordance with plans and specifications |
| | 2.7 | Hardware and decorative accessories are installed |
| | 2.8 | Work is checked against required quality standards |
| 3 | Finalise operation and maintain equipment | 3.1 Work area is cleaned, hand and/or power tools and equipment are cleaned, maintained and stored in accordance with workplace procedures |
| | 3.2 | Machinery is cleaned and left in a safe mode |
| | 3.3 | Faulty and/or defective equipment is tagged and reported in accordance with workplace practices |
| | 3.4 | Unused hardware is collected and stored for re-use or disposal following workplace procedures |
| | 3.5 | Waste and scrap materials are dealt with following workplace procedures |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency. Detail on appropriate performance levels for each furnishing unit of competency in reading, writing, oral communication and numeracy utilising the Australian Core Skills Framework (ACSF) are provided in the Furnishing Training Package Implementation Guide.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Range is restricted to essential operating conditions and any other variables essential to the work environment.

Furnishing products for installation include:

- kitchen cabinets
- bathroom cabinets
- wall units
- desks
- counters
- wardrobes
- dressing tables
