Assessment Requirements for MSFFM3042 Fabricate cabinetry

Release: 1

Assessment Requirements for MSFFM3042 Fabricate cabinetry

Modification History

Release 1. Changes to code, application, elements, performance criteria, assessment requirements. Foundation skills added. Range of conditions removed. Assessment requirements changed.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- fabricate cabinetry products from cutting lists or cut plans to workplace standards, including at least 2 of the following:
 - floor cabinet
 - wall cabinet
 - tall cabinet
- as part of the above, at least 5 of the following must be fabricated:
 - end panels
 - shelving
 - bench tops
 - backs
 - bottoms
 - doors and fixing rails
- meet workplace standards for efficiency, including:
 - identifying and resolving routine problems
 - working with others, recognising dependencies and using cooperative approaches to optimise workflow and productivity.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- workplace procedures for:
 - quality standards and procedures
 - guidelines regarding acceptable tolerance levels
 - safety policies and procedures
 - reporting machinery faults and material defects
- workflow process for cabinetry construction
- types and characteristics of manufactured board for cabinetry construction:
 - raw board

- melamine surfaces
- veneered board
- plywood and hard board
- different types of timber
- types and features of cabinetry product components:
 - end panels
 - shelving
 - bench tops
 - backs
 - bottoms
 - doors and fixing rails
- tools and machinery commonly used in cabinetry construction
- personal protective equipment (PPE) required for cabinetry construction.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - work documentation
 - tools and machinery required for performance evidence
 - PPE
 - unprocessed manufactured board or timber
 - workplace procedures.
-
