Assessment Requirements for MSF GG3023

Apply and handle films

Release: 1

Assessment Requirements for MSF GG3023 Apply and handle films

Modification History

Release 1. Supersedes and is not equivalent to MSF GG3007 Apply and handle films.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- completed the following in accordance with all safety requirements and job instructions on 2 occasions:
 - accurately cut film from patterns
 - trimmed film on glass
 - followed manufacturer guidelines for the application of films.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- different contexts for the use of coatings and films and the instructions and specifications and requirements that apply in those contexts -
 - Australian Standards
 - statutory requirements, including Australian Design Rules (ADRs)
 - manufacturers (including vehicle manufacturers)
 - insurers
- workplace safety system requirements and relevant technical information for applying film to glass
- work flow requirements in relation to the application of film to glass
- mathematical procedures for estimation and measurement, including calculation of area and estimation of material requirements
- qualities and characteristics of glass, including hazards and handling requirements, for the different types of filmed glass
- content of typical work instructions for application of film, including:
 - application techniques
 - colour
 - quantity
 - type
- types, characteristics, uses and limitations of different films, including:
 - decorative film
 - reflective

- safety
- security
- solar
- tinted
- types, characteristics, safe use, maintenance and limitations of tools, equipment and materials using in application and handling of films:
- techniques for measuring, cutting, surface preparation and application, the types of problems that may occur and how to avoid and respond
- quality indicators for applied films and coatings

procedures for the recording, reporting and maintenance of workplace records and information.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - area equipped with required safety and personal protective equipment
 - equipment, tools and materials to complete tasks specified in the Performance Evidence
 - glass sheet or product for processing
 - work orders
 - workplace procedures.
