Assessment Requirements for MSFGG4018 Use specialised glass and glazing industry applications

Release: 1

Assessment Requirements for MSF GG4018 Use specialised glass and glazing industry applications

Modification History

Release 1. Supersedes and is equivalent to MSF GG4010 Use glass industry data systems. Changes to title, application, elements, performance criteria and assessment requirements.

Performance Evidence

There must be evidence the candidate has completed the tasks in the elements and performance criteria of this unit of competency and has demonstrated the ability to:

- use a specialised glass and glazing application to generate documentation and/or reports for three different jobs or work situations.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- the main features of at least one specialised glass industry application and how, when and why to use those features
- the most common issues that can arise when using the application and how to avoid and respond to them
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - using specialised glass industry applications
 - communication and reporting
 - environmental protection and sustainability
 - quality assurance
 - work health and safety
 - work planning
- how to identify if the outputs of the specialised glass industry application meet quality requirements.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - computer hardware and applications, ergonomic furniture and other equipment required for the activities set out in the elements and performance criteria
 - job instructions and workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
