Assessment Requirements for MSFGN3005

Read and interpret work documents

Release: 1

Assessment Requirements for MSFGN3005 Read and interpret work documents

Modification History

Release 1. Changes to code, application, elements, performance criteria, assessment requirements. Foundation skills added. Range of conditions removed. Assessment requirements changed.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- locate, read, and interpret at least 10 different work documents, including each of the following:
 - Australian Standards relevant to sector
 - instructions and specifications from tool or material manufacturer
 - building codes required for a project
 - job procedures
 - safe work instructions or equivalent
 - safety data sheets (SDS)
 - photographs or other visual material
 - work plans
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- the basic format and function of:
 - Australian Standards
 - building codes
 - job procedures
 - manufacturer technical instructions and specifications
 - SDS
 - work plans
- conventions and symbols of plans, drawings, and specifications
- workplace procedures for filing and storing documentation.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - documentation listed in the performance evidence.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
