Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- planned and documented the work process for 3 different projects, 1 of which must be a kitchen and 1 of which must be a bathroom.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- typical client requirements and/or potential components of a project brief
- roles and responsibilities of all those involved in kitchen and bathroom projects, how these interrelate and the impact on project planning and sequencing:
 - architects
 - colour consultants
 - designers
 - material and component suppliers
 - tradespeople:
 - builders
 - cabinetmakers
 - electricians
 - flooring specialists
 - glaziers
 - painters
 - plumbers / gas fitters
 - stonemasons
 - tilers
 - waterproofers
- the overall planning process, potential key stages and sequencing of kitchen and bathroom projects and what each stage involves:
 - concept design
 - design specification
 - planning approval

- technical site assessment/site measure
- demolition
- construction:
 - services
 - waterproofing
 - installation
- differences between renovation and new build projects
- project planning techniques and required plan inclusions:
 - sequence of operations
 - budget
 - timelines
 - allocation and delivery of resources
 - contingencies
- features of cabinets and components used in kitchen and bathroom projects, including manufacturing methodologies
- supply chains for kitchen and bathroom components and materials.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - project briefs.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
