MSFPPF2015 Repair framing material finishes

Release: 1

MSFPF2015 Repair framing material finishes

Modification History

Release 1. Supersedes and is equivalent to MSFPF2008 Recognise and repair finishes of framing materials.

Application

This unit describes the skills and knowledge required to prepare and use materials and equipment to repair damaged framing materials.

This unit applies to picture framers and others completing work in accordance with a pre-determined work orders.

No licensing or certification requirements exist at the time of publication. Relevant legislation, industry standards and codes of practice within Australia must be applied.

Pre-requisite Unit

N/A

Unit Sector

Picture Framing

Elements and Performance Criteria

Elements describe the essential outcomes.		Performance criteria describe the performance needed to demonstrate achievement of the element.	
1	Prepare for work	1.1	Read work order and identify repair requirements
		1.2	Inspect frame composition and finish of frame, determine the feasibility of effecting the repair and advise the relevant person
		1.3	Identify and follow work health and safety requirements throughout the work
		1.4	Plan the work sequence suited to the job
		1.5	Select and check tools and equipment for quality, serviceability and safety prior to use
2	Repair framing materials	2.1	Measure, mix and use fillers and abrasive agents safely and effectively to remove or fill holes and other blemishes in materials

		2.2	Repair other defects in accordance with workplace procedures
		2.3	Match colours to suit existing finish of materials
		2.4	Apply finishes to materials in accordance with workplace procedures
		2.5	Problems occurring during repairs are identified and reported to appropriate persons
		2.6	Inspect repaired material to ensure best possible match to existing finish and store, return for further repair or scrap in accordance with workplace procedures
3	Complete work	3.1	Mark completed work for identification and store in accordance with workplace procedures
		3.2	Identify and store items for recycling in accordance with workplace procedures
		3.3	Clean work area and safely dispose of rubbish
		3.4	Accurately complete required workplace documentation
		3.5	Check, clean and store tools and equipment in accordance with workplace procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to MSFPF2008 Recognise and repair finishes of framing materials.

Assessment Requirements for MSFPF2015 Repair framing material finishes

Modification History

Release 1. Supersedes and is equivalent to MSFPF2008 Recognise and repair finishes of framing materials.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- repaired 5 different damaged items of picture framing materials.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- work flow process for repair of framing material finishes
- safety considerations and requirements for repairing finishes to framing materials
- types, characteristics, uses and limitations of different framing materials:
 - mouldings of various materials
 - mat boards
 - perspex
 - glass
- types of defects in the finish of framing materials and their method of repair for:
 - nail and/or pin holes
 - splits and cracks
 - worn finishes and dents and bruises
- mathematical procedures for estimation, measurement and use of ratios for mixing
- functions, features and safe use of repair tools and equipment
- types of finishes to framing materials and how to colour matching and repair:
 - painted surfaces
 - schalag metal
 - gesso
 - shellac and stained finish
- documentation requirements for identifying and recording work.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - workspace equipped with framing repair tools, equipment and consumables to complete tasks in the Performance Evidence
 - work orders
 - frames for repair.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
