**Release: 1**

# MSFPPF3013 Prepare textiles for framing

## Modification History

Release 1. Supersedes and is equivalent to MSFPPF3004 Prepare textiles for framing.

## Application

This unit describes the skills and knowledge required to prepare and mount textiles for framing, including lacing, couching, blocking, stretching and straining of textiles and stitching to backing of textiles.

This unit applies to picture framers completing work in accordance with pre-determined frame designs. They use discretion, judgement and specialised knowledge to select and adapt different techniques and materials.

No licensing or certification requirements exist at the time of publication. Relevant legislation, industry standards and codes of practice within Australia must be applied.

## Pre-requisite Unit

N/A

## Unit Sector

Picture Framing

## Elements and Performance Criteria

| Elements                                         | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1. Prepare for work                              | <p>1.1 Read work order, identify proposed mounting requirements and confirm workplace capability</p> <p>1.2 Identify and follow work health and safety requirements throughout the work</p> <p>1.3 Analyse textile and its compatibility with the mounting process, including the type of mounting and the composition of the substrate material</p> <p>1.4 Select tools and equipment suited to the type of mounting and check for quality, serviceability and safety prior to use</p> <p>1.5 Identify and select required materials in the appropriate size quantity</p> |

| Elements                                         | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>                                                                                                                                                                                                                                                                                                                   |
| 2. Manipulate textiles                           | 2.1 Prepare materials in accordance with the type of mounting<br>2.2 Place textile into position using the selected method<br>2.3 Manipulate textile to ensure the item is free of creases and overstretching marks and shows correct proportioning of images<br>2.4 Inspect textile for compliance with quality and work order requirements and rectify any deficiencies using techniques suited to the mounting method |
| 3. Complete work                                 | 3.1 Mark completed work for identification and store in accordance with workplace procedures<br>3.2 Identify and store items for recycling in accordance with workplace procedures<br>3.3 Clean work area and safely dispose of rubbish<br>3.4 Accurately complete required workplace documentation<br>3.5 Check, clean and store tools and equipment in accordance with workplace procedures                            |

## Foundation Skills

Supersedes and is equivalent to MSFPP008 Prepare textiles for framing.

## Unit Mapping Information

Supersedes and is equivalent to MSFPP3004 Prepare textiles for framing

# Assessment Requirements for MSFPPF3013 Prepare textiles for framing

## Modification History

Release 1. Supersedes and is equivalent to MSFPPF3004 Prepare textiles for framing

## Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- prepared textiles for framing that include canvas works, needle art and clothing items:
  - using each of the following preparation techniques on at least one textile:
    - lacing
    - couching
    - stretching and/or straining
    - stitching
    - blocking.

## Knowledge Evidence

There must be evidence the candidate has knowledge of:

- work flow process in relation to preparing textiles for framing
- safety considerations and requirements when preparing textiles, including personal protective equipment
- types of textiles presented for framing and their features:
  - painted canvas
  - weavings
  - tapestries
  - cross-stitch
  - applique
  - silk work
  - clothing items
- type, characteristics, uses and limitations of the various methods of preparing textiles for framing, and the materials used for:
  - lacing
  - couching
  - stretching and/or straining
  - stitching
  - blocking
- mathematical procedures for estimation and measurement

- functions, features and safe use of tools and equipment used to prepare textiles for framing:
  - needles
  - stretching pliers
  - stapler
- techniques for preparing textiles, the types of problems that can occur and how to respond
- quality and aesthetic requirements in preparing textiles for framing
- the potential impacts of mounting on textiles and how to avoid damage
- documentation requirements for identifying and recording.
- 

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - workspace equipped with:
    - tools, equipment and consumables for all required types of textile preparation as specified in the Performance Evidence
    - personal protective equipment
  - work orders
  - textiles for framing.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
