MSFSF2005 Operate a steam press

Release: 1

MSFSF2005 Operate a steam press

Modification History

Release 1 - New unit of competency

Application

This unit of competency covers applying knowledge of materials, product purpose and processes to the correct and efficient operation of steam pressing equipment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Competency Field

Unit Sector

Soft Furnishing

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | | | |
|---|--------------------------------|-----|---|
| 1 | Identify work requirements | 1.1 | Work orders, care labels and equipment instructions are used to identify work requirements |
| | | 1.2 | Equipment, components and processes used for materials preparation and pressing process are identified |
| | | 1.3 | Operating requirements for the steam pressing equipment are identified |
| | | 1.4 | Workplace quality requirements for the final product are identified |
| 2 | Plan steam pressing operations | 2.1 | Work health and safety (WHS) requirements, including ergonomic criteria and personal protection needs, are observed throughout the work |
| | | 2.2 | Temperatures and any particular precautions are identified from care labels and workplace instructions |

- 2.3 Work sequence is planned to suit job
 - 2.4 Equipment emergency stops, gauges, guards and controls are identified
 - 2.5 Task sequences are planned
- 3 Set up steam pressing equipment
 - 3.1 Equipment information, required specifications and operating instructions are identified
 - 3.2 Temperatures are set and equipment adjustments are checked against work plan
 - 3.3 Fabric panels are checked for quality prior to pressing
 - 3.4 Damaged or incomplete items are reported
- 4 Press fabrics
 - 4.1 Materials are lifted and held onto the press using appropriate techniques
 - 4.2 Pressing operations are conducted following the planned sequence
 - 4.3 Adjustments are made to press settings to improve quality of work
 - 4.4 Required quantity and quality of work is maintained
 - 4.5 Pressed items are protected from dust and other contaminants and placed in workplace approved holding areas
 - 4.6 Equipment is cleaned up and lubrications, adjustments and waste management processes are completed in accordance with workplace procedures
- 5 Maintain work quality
 - 5.1 Pressing process is monitored and materials and equipment operating conditions which may affect product quality are reported
 - 5.2 Authorised changes in operating procedures and temperatures are implemented

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency. Detail on appropriate performance levels for each furnishing unit of competency in reading, writing, oral communication and numeracy utilising the Australian Core Skills Framework (ACSF) are provided in the Furnishing Training Package Implementation Guide.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Range is restricted to essential operating conditions and any other variables essential to the work environment.

- | | |
|---|--|
| Unit context includes: | <ul style="list-style-type: none">• WHS requirements, including legislation, building codes, material safety management systems, hazardous and dangerous goods codes, and local safe operating procedures or equivalent• work is carried out in accordance with legislative obligations, environmental legislation, relevant health regulations, manual handling procedures and organisation insurance requirements• work requires individuals to demonstrate some discretion, judgement and problem solving |
| Task planning includes: | <ul style="list-style-type: none">• required temperatures and warm up/cool down times• key parts of the materials to be pressed which require checks for quality of work• work area housekeeping requirements• safe and suitable work area |
| Materials to be pressed include: | <ul style="list-style-type: none">• plain and patterned fabrics• lining materials and leather used in the manufacture of soft furnishing items |
| Material lifting and holding will be impacted on by: | <ul style="list-style-type: none">• machine type• personal right or left-hand preference of the operator• manipulation requirements for the materials• special pressing requirements for different parts of the pressed panels |
| Personal protective equipment includes: | <ul style="list-style-type: none">• that prescribed under legislation, regulations and enterprise policies and practices |
| Information and procedures include: | <ul style="list-style-type: none">• workplace procedures relating to the use of tools and equipment• work instructions, including job sheets, cutting lists, plans, drawings and designs |

- workplace procedures relating to reporting and communication
- manufacturer specifications and operational procedures

Unit Mapping Information

Supersedes and is equivalent to LMFSF2005B Operate a steam press.
