Assessment Requirements for MSFSF3017 Measure up and calculate fabric quantities for window coverings

Release: 1

Assessment Requirements for MSFSF3017 Measure up and calculate fabric quantities for window coverings

Modification History

Release 1. Changes to code, application, elements, performance criteria, assessment requirements. Foundation skills added. Range of conditions removed. Assessment requirements changed.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- measure up and accurately calculate and document fabric quantities for at least 3 different window covering types.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- fabric and designs commonly used for window coverings and their requirements for fabric quantities in terms of aesthetics and functionality
- measuring tools and procedures for calculating fabric quantities for curtains and blinds
- mathematical processes for calculating fabric quantities
- workplace procedures for documenting measurements and fabric requirements.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources required for performance evidence, including:
 - work orders that include details of fabric and style requirements
 - window openings to measure
 - workplace procedures, manufacturing specifications, codes, standards, manuals, and reference materials.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
